IMPRINTING AND APPLYING LABELS

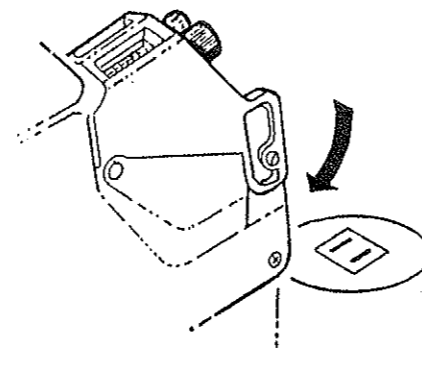

FIGURE 8

1 Squeeze and release handle to imprint and feed out a label which will appear at the label application area.
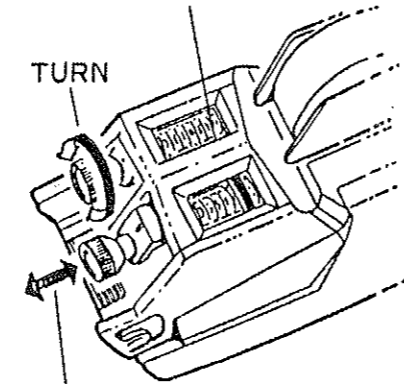

2 Place the lower front edge of the labeller on the product and apply the label with a wiping motion.

IMPORTANT: SQUEEZE THE HANDLE WITH JUST ENOUGH PRESSURE TO CAUSE THE LABELLER TO IMPRINT AND DISPENSE A LABEL, OVER SQUEEZING MAY CAUSE HEAVY OR UNCLEAR PRINT.

SETTING PRINT

ORANGE POINTER

TURN

PUSH-PULL

FIGURE 9

1 To set a desired character, align the orange pointer with a desired print band by moving indexing knob in or out. Turn indexing knob in either direction until the desired character with the yellow background* portion of the band is visible in the window. Repeat as necessary.

2 To avoid damage to the print bands, always push the indexing knob all the way in, after the information is set.

3 When dialling ensure you are reading yellow banks* only. There should not be any black bands visible.

* On single line machines the background is black and the numbers yellow.
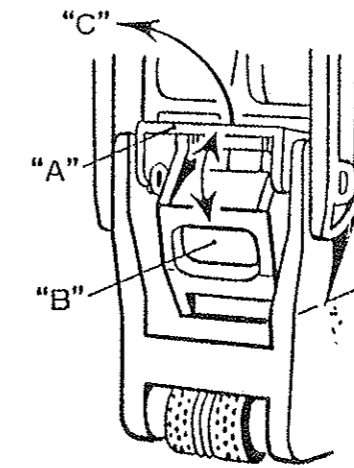

CHANGING INK ROLLER

"C"

"A"

"B"

FIGURE 10

1 Squeeze the ink roller lever (see Figure 10 "A") and the ink roller assembly ("B") together.

2 Lift the ink roller assembly up and out of the labeller (See Figure 10 "C").

3 Hold the ink roller assembly firmly in hand, while sliding ink roller holder either left or right to separate parts off track (Figure 11).

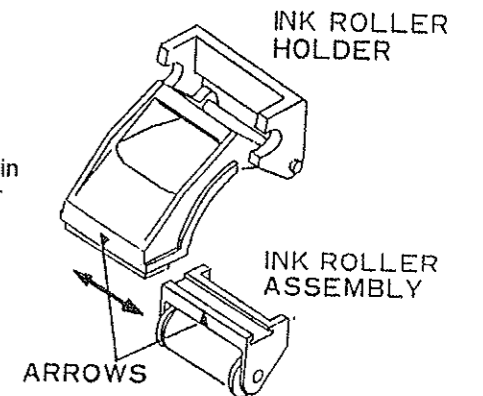

INK ROLLER HOLDER

INK ROLLER ASSEMBLY

ARROWS

FIGURE 11

4 Slide new ink roller on track of holder until arrows line up (Figure 11).

5 Squeeze ink roller lever and ink roller assembly together and insert in front of labeller.

**6** Only the ink roller should be thrown away. Not the holder.
